Dr. David Poulad and Dr. Adam Lipson are board-certified New Jersey neurosurgeons specializing in the treatment of brain, pituitary and spinal tumors, stereotactic radiosurgery utilizing Cyberknife/LINAC technologies, neurostimulation surgery for pain and movement disorders, and complex spinal surgery. They are leaders in disc replacement and minimally invasive spine surgery.

A graduate of Cornell University, Dr. Poulad earned his medical degree from Saint Louis University School of Medicine in 1998. He was one of the first neurosurgeons in NJ to perform a minimally invasive spinal fusion using robotic technology.

A graduate of Dartmouth College and Harvard Medical School, Dr. Lipson was the first to perform a frameless deep brain stimulator procedure for Parkinson's Disease in NJ in 2010. He is the author of more than 20 peer-reviewed articles and book chapters. In 2011 he traveled to Vietnam to perform scoliosis surgery on children and educate local surgeons for Project Butterfly.
